

The Fabulous Limelitters

Discography

The Limelitters' album, **Tonight in Person** reached number 5 in the U.S. charts in 1961. Their second album made the top 40, and their third release, The Slightly Fabulous Limelitters, made the top ten in the same year. But their one album with the longest staying power is undoubtedly their album of folk songs for kids of all ages, Through Children's Eyes.
